

TAUFEEQ ALI

+1 (425) 623-8503 | taufeeq2608@gmail.com | Flower Mound, TX, USA | linkedin.com/in/taufeeq-ali

EDUCATION

University of Texas - Dallas

Bachelor's, Computer Science

Aug 2023 - May 2026

GPA: 3.3

- Intro to Programming I & II, Data Structures and Algorithms, Computer Architecture, UNIX based programming, Discrete Mathematics, Probability Statistics and Linear Algebra

WORK EXPERIENCE

HR Block

Associate Team Lead

Redmond, WA, USA

Feb 2023 - Apr 2023

- Improved customer service experience and boosted store performance to the Top 10 in the region by leveraging data-driven strategies and predictive insights to identify and address common customer issues, and by collaborating with management and team members to resolve queries efficiently using data science techniques for informed decision-making.
- Achieved recognition as a top-performing manager by managing a team of tax specialists, creating weekly schedules, and ensuring efficient front desk operations, akin to managing distributed storage in web services.

PROJECTS

Toros- Pickleball Tournament App

Developer

Jan 2025 - Present

- Developed a full-stack web application using Spring Boot and React to create a comprehensive tournament management system that tracks pickleball doubles matches, displays real-time scores, and visualizes team progression.
- Designed an interactive leaderboard showcasing current team standings and updated scores of ongoing and completed matches.
- Implemented a REST API using Spring Boot to handle data retrieval and updates for match results, player statistics, and tournament brackets.
- Built a responsive React-based frontend to provide a seamless user experience with dynamic updates for match details and rankings.
- Integrated Excel file upload functionality, enabling efficient player list imports for faster tournament setup.
- Enhanced data reliability and synchronization by connecting the backend to a relational database for persistent storage of match records and player data.

Libra - AI Technology Assistant

Developer

Dec 2024 - Jan 2025

- Technology Assistant Application built using Node.js, React, Google Gemini API
- Developed a full-stack application with Node.js and React, enabling users to receive real-time technical support and feature explanations through a responsive user interface.
- Integrated Google Gemini API to power AI-based responses for answering questions, troubleshooting errors, and explaining software features.
- Designed and implemented efficient API endpoints and React Hooks to handle user queries, process responses, and display relevant technical information. This helped to optimize state management for seamless interactions.
- Integrated Gemini Vision API to detect errors and provide responses to images captured and uploaded

Rental Car Application

Developer

Flower Mound, TX, USA

Aug 2024 - Oct 2024

- Enhanced operational efficiency by 30% by developing a Windows Form application for a rental car facility, utilizing C# and .Net in Visual Studio to create a user-friendly interface.
- Improved data management capabilities and enhanced image handling efficiency by integrating Azure Tables and Blob storage to implement cloud solutions for maintaining vehicle inventory and effectively managing and storing vehicle images.
- Streamlined backend operations by creating interfaces for backend storage interaction, authoring test stubs to ensure robust client interaction with Azure Storage.

Multiplayer Tic-Tac-Toe Game

Developer

Flower Mound, TX, USA

Aug 2023 - Aug 2023

- Improved UI design efficiency by leveraging XAML for streamlined user interfaces in the multiplayer Tic-Tac-Toe game.
- Optimized game performance by implementing a polling model to track player moves via Azure Queue, enhancing response time.

SKILLS

- Skills:** Git, Java, Python, Microsoft Azure, Data Science, Customer Service, Google Analytics, C#, Azure storage, Agile, ASP.NET, Data Analysis, Data Structures & Algorithms, .NET, PowerPoint/Keynote/Slides, SCRUM, Software Testing, UI/UX Design, Web Development, React.js, Node.js, Firebase
- Student Organizations:** Design Society: Financial and Secretarial Officer in Charge of managing organizational funds, documents and assisting Organization President with Tasks
