

TAUFEEQ ALI

+1 (425) 623-8503 | taufeeq2608@gmail.com | Flower Mound, TX, USA | linkedin.com/in/taufeeq-ali

EDUCATION

University of Texas - Dallas

Aug 2023 - May 2026

Bachelor's, Computer Science

- Intro to Programming I & II
- Data Structures and Algorithms
- Computer Architecture
- UNIX based programming
- Digital Logic and Design
- Software Development

PROFESSIONAL EXPERIENCE

ARGO Data

Richardson, TX, USA

Software Development Intern

Jun 2025 - Aug 2025

- Software Engineering Intern working with EDMS (Early Detection & Monitoring Service) Team to support banking customer infrastructure
- Enhanced and maintained internal .NET 3 web tools, fixing bugs, improving UI/UX, and optimizing performance.
- Developed a Customer Map using MapLibre JS and .NET 3 with ASP, displaying 10,000+ customer office locations with real-time statuses and filters for faster issue identification.
- Built an Alerts Dashboard in .NET 3 with ASP, enabling breakdown of production alerts by day, server, or cumulative totals to improve monitoring and response times to alerts.
- Partnered with team members to gather feedback, driving continuous improvements and visual enhancements across internal tools.
- Initiated development of a modern .NET 8 + Vue.js web tool to deliver improved performance, better layouts, enhanced UI/UX, and new diagnostic features.
- Improved reporting pages to highlight customer environment metrics and team performance, equipping team members with more actionable insights.

PROJECTS & OUTSIDE EXPERIENCE

Libra - AI Technology Assistant

Dec 2024 - Jan 2025

Developer

- Developed a full-stack application with Node.js and React, enabling users to receive real-time technical support and feature explanations through a responsive user interface.
- Integrated Google Gemini API to power AI-based responses for answering questions, troubleshooting errors, and explaining software features.
- Designed and implemented efficient API endpoints to handle user queries, process responses, and display relevant technical information.

Toros- Pickleball Tournament App

Jan 2025 - Present

Developer

- Full-Stack Web Application (Spring Boot & React)
- Implemented a REST API using Spring Boot to handle data retrieval and updates for match results, player statistics, and tournament brackets.
- Built a responsive React-based frontend to provide a seamless user experience with dynamic updates for match details and rankings.

SKILLS

- **Skills:** Git, Java, Python, Microsoft Azure, Data Science, Customer Service, Google Analytics, C#, Azure storage, Agile, ASP.NET, Data Analysis, Data Structures & Algorithms, .NET, PowerPoint/Keynote/Slides, SCRUM, Software Testing, UI/UX Design, Web Development, SQL
- **Student Organizations:** Design Society: President handling all operations and Giving students a space to express their ideas through the lens of design
